<b>Cafeteria Incident</b>	Any safety, hygiene, behavioral, or operational issue occurring within the cafeteria premises, including food-related complaints, slips/trips, equipment malfunction, or interpersonal conflicts.

## 5.0 Method:

### 5.1 Reporting:

**5.1.1** Incidents (both accidents and near misses) are reported through “QubeSafe” mobile or web application for initiating corrective/ Preventive actions to eliminate the root causes and hence recurrence of those incidents. Incident records are the foundation for any investigation.

**5.1.2** It shall be the responsibility of every employee of INDIQUBE to report all the incidents including near misses.

**5.1.3** It shall be the responsibility of the person involved in the event to report it immediately. If the individual person is not in condition to report, then the responsibility shall lie with the co-employee/ supervisor who is working/ supervising in the immediate vicinity of the incident

**5.1.4** site. EHS & Sustainability department will be logged in the incident register IQ/EHS/M/P11/v1.2/F08.

**5.1.5** In case of any accident the affected persons shall be given necessary first aid as well as medical aid as per the following steps:

- 1) Check for the severity of injury of the injured person.
- 2) Ensure the injured person is at ease.
- 3) Call personnel to help, if necessary.
- 4) Call for all the emergency services & equipment.
- 5) EHS & Sustainability personnel shall be responsible for coordinating all relief operations in concert with site administration department. Trained personnel shall deal with incident as appropriate. EHS & E.R.T personnel shall be responsible for adhering to all local legal requirements while addressing the above.

All first aid cases shall be recorded in IQ/EHS/M/P11/v1.2/F19 with details of first aid provided to the affected person.

**5.1.6** Incident Register & First Aid Cases shall be reviewed by Manger EHS (during the safety inspections). Accidents (which need a medical aid other than first aid) shall be recorded in the IQ/EHS/M/P11/v1.2/F08. By each Project safety officer or Region EHS head and reported to Sr. EHS advisor (or Manager EHS / Regional- operations Head, in case of offices). After ensuring that the victim is given the necessary first aid/ medical aid, preliminary investigation shall be carried out by EHS & Sustainability Department immediately after the incident as explained in 5.2. Irrespective of whether it is an accident, near miss, first aid, RWC or LTA, details of all incidents are recorded in IQ/EHS/M/P11/v1.2/F20 (Near miss, False Fire Alarm, Property Damage, 6M)

**5.1.7** Fire / other environmental incident shall also be treated as incidents and investigation shall be done as per this procedure. It consists of initial response, conducting a walk through and gathering information or evidence & take immediate actions (corrections) if necessary.

## **5.2 Investigation**

Following steps shall be taken for the investigation of incidents:

**5.2.1** Initial Communication shall be initiated by the Facility or Project Manager / person who sees or is involved in the accident.

**5.2.2** The medical officer / Male Nurse / ERT(if available, or as decided by Client) shall put in his remarks on the injury details, once the report is submitted by the reporting person.

**5.2.3** The root cause analysis and further investigation shall be carried out by the C.F.T (cross functional team) EHS & Sustainability Manager. The investigators shall ensure that the responsibility of initiating the corrective / preventive action is allotted to the right persons and mentioned in the report.

**5.2.4** The respective Project Manager/ Facility Manager shall add his remarks / comments on the incident investigation and the proposed corrective / preventive action.

**5.2.5** The investigation is completed after the EHS OFFICER or EHS Manager puts his comments on the incident and / or proposed corrective / preventive actions. Upon completion of the corrective / preventive actions, the EHS Officer or Project Manager (EHS Manager) shall review their effectiveness and close the document. For incidents
